## What our customers think

“I think at the end of the day, we’re saving at least half an hour a day with Termius. We don’t have to look for information anymore. We just got to Termius, log in, and we just click on a host to connect. I don’t even have to type a password, I just click and jump on a server in seconds. Termius helped us to improve productivity.”

**Norman Pleitez**

Director of Website Development &  
Design at Ferocious Media
