What our customers say

termius

actually takes to organize servers in a list, whereas adding them to Termius takes seconds! Termius has saved me literal days because there's no reason for me to go in on a Google Sheet and manually update passwords, IP addresses, and so on."

Liam Temple

Company Director at Iceline Hosting

★★★★★

I rarely review apps, but I want to do this for Terminus. I was satisfied with it before the update. But now it's just amazing! Before Terminus, I used Apple terminal, each time typing ssh user@hostname blah-blah-blah. Now I connect to my favorite hosts and change directory with one click. Good job!

★★★★★

I love the UI. I work on Linux machines quite a bit and I'd been using Terminal on my Macbook Pro for the last year. It was a pain but it worked. I downloaded this and absolutely love it. UI looks beautiful (I'm always in Dark Mode) & I don't get disconnected like I do with Terminal. Well done.

Frequently asked questions

Am I automatically charged after the trial ends?

There is no automatic charge after any trial ends for all the platforms, except the iOS. The iOS users need to cancel the automatic charge

termius

Can I cancel my plan at any time?

Yes, you can cancel your plan at any time.

Can I change my plan?

Yes, you can change your plan at any time. You can upgrade it or downgrade it, so it always fits your needs. If you need to downgrade your plan, please contact the support team.

What payment options do you support?

Plans can be purchased on our website using a credit card or by purchase order. We can also issue an invoice payable by check or bank transfer for annual plans.

To explore available payment options, please Sign Up or Log In to the Termius website and open the Billing page on the account management portal.
